Projects

Street-Eats Food Truck App

- Mobile app built with JavaScript-, React Native, Expo, Node.js, Express, MongoDB, Loopback, and socket.io.
- Allows food truck owners to create/edit food trucks and menus, and to broadcast their location in real time; and customers can locate, filter, and review them on the app.

To-do app

- Built with React, Node.js and a bootstrap template.
- Allows users to create, edit, prioritize, and delete tasks.

RESTful API for small stores

- Built with Node.js, Express, MongoDB, Mongoose, and JSON web token for user authentication.
- Provides several routes for customers and owners.
